

CONSULTING SERVICES

Assystem Consulting

Assystem Consulting combines management skills with technical expertise specialised in performance improvement along the product life cycle.

More than a consulting firm, Assystem acts as an industrial and business partner

- Delivering from strategy to product/factory
- Leveraging all Assystem capabilities
- Sharing industrial or development risks

OUR KEY ASSETS

- **Significant track record and experience in development and operations fields**
Example: time-to-market reduction at Airbus, Renault, Sagem, etc.
- **Strong team capabilities combining consulting skills, industrial and technology expertise**
Example: reduction of non-quality costs on composite-made products
- **Deep know-how in benchmarking other industries**
Example: cross-fertilization between automotive and aerospace (Program Management topics)
- **Ability to develop original visions for the future**
Example: recent publications *Automotive Energies 2020*, *Lean Engineering for Nuclear Facilities*
